

NEW 2024 CATALOG

A & D Elevator Cabs and Entrances Inc.

Doors.Frames.Cabs

About Us

Our Company.

A & D Entrances is a family owned company that specializes in the manufacturing of elevator cabs, frames & doors. Our 40,000 square foot manufacturing facility is conveniently located in Wyandanch, NY servicing the New York City Metropolitan area. We have been in business since 2007 and growing rapidly, employing over 100 employees. We currently run approximately 200+ projects on a daily basis and our projects range from your small residential buildings to large commercial high rise. We have three UL 90 Min Fire Rated Label Certifications, one being the only company to acquire a 10 foot label.

What sets A & D apart from the rest?

A combination of the right machinery, staff and resources. Our warehouse currently has an Amada Turret, Laser with a 5-stage loader, three welding stations, a clincher to name a few of our state-of-the-art machinery. Engraving of swing fronts or panels are done by our laguna. Need your metal powder coated, we have two ovens and a powder coating booth offering A & D standard colors. Looking for a different color not part of our standard chart, no problem, we can dip into large selection of colors provided by Sherwin Williams for an additional charge. We offer renderings part of the cab design process in order to provide visual of your idea. Not looking to travel to our fabricating warehouse for design meetings, we have a Manhattan show room where we can narrow down designs and show a large array of samples to our clients. Consider us for your next project, shoot us an email or give us a call!

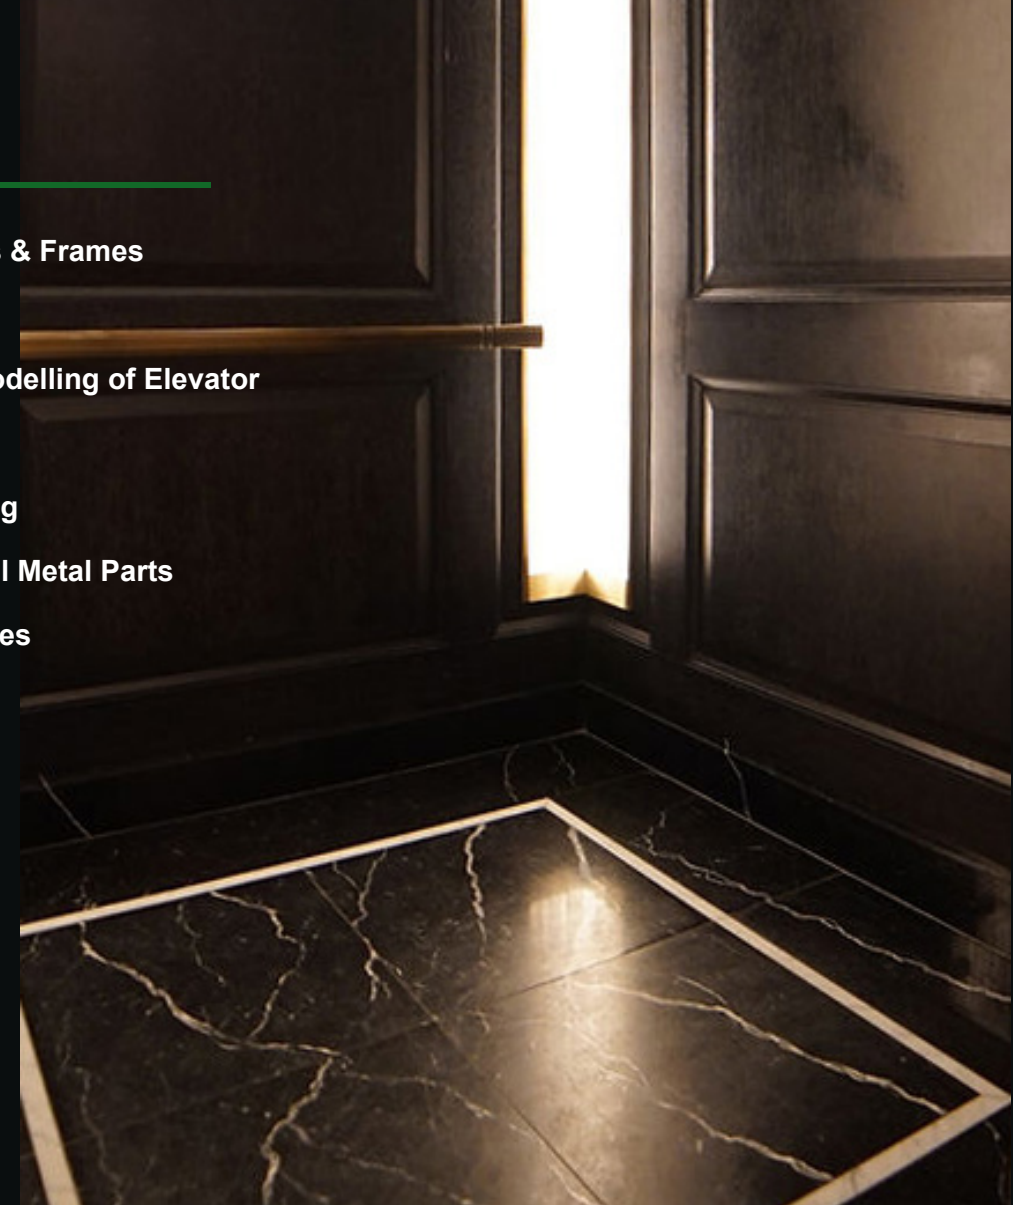

We are proud to announce our new NYC Based Showroom!
